RE: ARCHIVES TRUNKS

There are a lot of purely personal items - for instance there are copies of all books autographed from Ron to myself which are my personal belonging's; there are valuable docs of my children's birth certificates, old tax returns, etc. - these do not belong in Archives. Further there are oodles of old correspondence to yachts companies, about yachts, about camera purchases, etc., etc. which are useless junk.

So you will have to send over or repack with the trunks all personal possessions & things which really do not belong in Archives & route back to SU for storage until I can get to it.

The problem here is that I may soon be in prison so I will not be on hand to handle - unless you do this very quickly.

Much Love,

Above modified a few days later as follows: (relayed by CT)

"Thank you. No, I do not want to receive everything all in one great big bulk as it would be impossible to transport and it would all descend upon me at one go - have materials sent over as done - "
